To whom it may concern

Regarding REACH

REACH (The European Parliament and Council Regulation (EC) No 1907/2006) is the Regulation on Registration, Evaluation, Authorization and Restriction of Chemicals. It entered into force on June 1 2007. The aim is to ensure a high level of protection of human health and the environment.

Fristads Kansas Group's Policy

Fristads Kansas Group is member of the textile trade organization "Kemikaliegruppen" and as such, part of a network to obtain the latest information on REACH and European Chemical legislation.

Fristads Kansas Group requires that all suppliers sign an agreement, Fristads Kansas Group's Restricted Substances List (RSL), which dictates the rules for process-related chemicals, product-related chemicals and biocides used in the production of Fristads Kansas Group's products.

By signing the RSL agreement, the supplier commits to guaranteeing that the products are free from or meet the limit value regarding all listed substances and agree to participating to the Fristads Kansas Group's Chemical Compliance Program. The Fristads Kansas Group's RSL agreement is updated continuously in accordance with revised EU legislation and is always available to suppliers to download from Fristads Kansas Group website.
